

GAZE LAB | The Smartest Workspace Ever

In 2016, Gaze Lab launched the **Gaze Desk**, the smartest standing desk ever. The ingenious combination of premium hardwoods, ergonomic design and smart IFTTT-enabled technology, propelled the project to raise over \$150,000 on Kickstarter. This makes it one of the top four sit-stand desks in Kickstarter history and the company continues to sell the Gaze Desk at its Gaze Store outlets in Korea and internationally on the IndieGogo Marketplace. In 2018, Gaze Lab returned with the **GiiroMat** and **Giiro Posturebot**, two posturetech products designed to make it safer and more enjoyable to spend the day standing at a desk.

Now, Gaze Lab is launching the **GazeTray**, the world's first wireless charging storage solution that can charge up to five devices at the same time. And it looks great.

GazeTray

The first wireless charger that fits beautifully into your space and charges all of your devices together.

GazeTray is the perfect daily storage solution for all your wireless gadgets. With three lustrous finishes and multiple colors to choose from, it looks great sitting on your desk. And you always stay powered up and connected with simultaneous charging of up to 5 separate devices. **GazeTray** is the world's first multi-device wireless charger incorporated into a stylish storage tray.

5 Versatile Charging Options

★ Phone Charging Platform

Large Qi standard wireless charger on the left side of the tray. Charges any device that supports wireless charging. Perfect for your iPhone!

★ Apple Watch Charger

Small magnetic charger to the right of the phone charging platform. Made especially for Apple Watches.

★ AirPods Charger

Small Qi standard wireless charger in the bottom right corner of the tray. Made to fit AirPods perfectly, but will also work with other small devices that support wireless charging.

★ 2 USB Ports

It never hurts to keep your wired charging options open!

★ **Free AirPods Charging Case with every GazeTray**

First-gen AirPods need a charging case to go wireless. We've got you covered.

Beautiful and Practical Catchall Storage Tray

It's not all about the chargers. We know how cluttered a desk can get with accessories and small items. With **GazeTray**, keep everything in one place in a 264 cm² storage tray, alongside all your important devices. Perfect for sunglasses, car keys, your wallet, and more! And the whole thing is smaller than a sheet of paper, making it easy to take with you and go.

9 Elegant Finish & Color Combinations

★ Artificial Leather

- Black
- Navy
- Gray
- Sepia

★ Matte Rubber-Coated Plastic

- White
- Blush Pink
- Forest Green
- Dark Blue

★ Chromed Plastic

- Gold

Back Now on Indiegogo

The GazeTray crowdfunding campaign launched on Indiegogo on January 2nd 2019. Products will ship to backers in March 2019. Every tray ships with a free AirPods charging case.

Rock-Solid Track Record

Gaze Lab CEO Juyoun Lee has 12 years of experience in the tech field, including 8 years at Samsung. The 30-person strong Gaze Lab team has launched two successful [Kickstarter](#) campaigns, is currently selling three products on the [Indiegogo Marketplace](#), and sells multiple products on [Amazon](#) and in their own [Gaze Shop](#) stores in South Korea. Simply put, we have tons of experience making great products and delivering them to our customers. **Back now, risk-free.**

"First, we developed a smart desk and standing mat. Now, we are focused on helping people work more efficiently. We're building the smartest workspace ever." — Juyoun Lee, CEO
